LinkedIn: https://www.linkedin.com/in/femas-alfaridzi/ | https://portfolio-femas.netlify.app/

Fresh Graduate in Information Technology (GPA 3.90/4.00, Cum Laude). Results-driven Software Engineer with hands-on experience in full-stack web development, API integration, and database management (SQL). Highly skilled in translating operational field requirements into robust application features and conducting rigorous testing/debugging. Proven ability to architect enterprise solutions, demonstrated by successfully digitizing over 793,000 records into a centralized system.

## EDUCATION

**Universitas Brawijaya | Malang, Indonesia**
***Bachelor of Information Technology* | Aug 2023 - July 2026**

- GPA: 3.90 out of 4.00
- Relevant Coursework: System Analysis & Design, Software Engineering, Database Systems, Object-Oriented Programming, Computer Networks, Internet of Things.

**Universiti Teknologi Petronas (UTP) | Bandar Seri Iskandar, Malaysia**
***Student Exchange* | Sept 2024**

- Participated in an immersive international exchange program to broaden global perspectives and technical expertise in modern technology.
- Completed advanced technical coursework focusing on Artificial Intelligence / Machine Learning (AI/ML), Virtual Reality / Augmented Reality (VR/AR), Digital Forensics, and General STEM.

## PROFESSIONAL EXPERIENCE

**PT Transnovasi Bangun Persada | Palembang, Indonesia**
***IT Project Operation* | Sept – Dec 2026**

- Operated and maintained mission-critical software/hardware infrastructures, ensuring 100% system uptime and smooth data integration for digital solutions supporting Industry 4.0 transformation.
- Led daily operational data updates and security enforcement, ensuring data confidentiality while streamlining daily reporting processes for executive decision-making.
- Acted as the central point of contact for external users and internal IT teams, accelerating the resolution of application constraints and maintaining high operational standards across public and enterprise transport projects.

**Sekretariat Dewan Pertimbangan Presiden | Jakarta, Indonesia**
***IT System Analyst Intern* | Jan – Mar 2026**

- Spearheaded the digital transformation of the Protocol Division's workflows, translating manual requirements into structured SDLC specifications.
- Developed and deployed SIAPRO, a web-based information system that successfully digitized over 793,000 manual spreadsheet records of protocol activities (2023-2026), significantly improving reporting accuracy and eliminating manual reliance.
- Authored comprehensive project documentation and risk mitigation plans, enhancing cross-departmental alignment and standardizing operational reporting protocols.

**PT Cmlabs Digital Indonesia | Malang, Indonesia**
***IT Project Manager Intern* | Jul – Dec 2025**

- Coordinated sprint planning, timeline management, and cross-team collaboration between design and development teams to ensure on-time delivery of enterprise web applications.
- Engineered responsive frontend interfaces using Next.js and REST APIs, translating UX requirements into highly functional web solutions.

## CERTIFICATION AND LICENSES

- **Software Engineer | Hewlett Packard Enterprise (HPE) | Sept 2026**
- **Technology Software Development | Citi Group | Sept 2026**
- **Technology Risk | EY (Ernst & Young) | Sept 2026**

- **IT Support Technician Pathway | IBM (International Business Machines Corporation) | Sept 2026**
- **Technology | Deloitte | Sept 2026**
- **Next.js App Router Fundamentals | Vercel | Oct 2025**
- **Agile & Lean Development Culture | Jago Digital Academy x DKATALIS | Jul 2025**
- **Microsoft Azure AI Fundamentals (AI-900) | Microsoft | Sept 2025**
- **IoT Device Engineer | Badan Nasional Sertifikasi Profesi (BNSP) | Jan 2026**
- **Microsoft Office Desktop Application | Trust Training Partners (Microsoft Learning Partner) | Dec 2025**

## ORGANIZATIONAL EXPERIENCE

### Eksekutif Mahasiswa Universitas Brawijaya

***Staff Kementerian Badan Usaha Milik Mahasiswa* | Aug – Dec 2024**

- Supported programs aimed at empowering student-led businesses through entrepreneurship development initiatives.
- Collaborated with cross-functional teams in planning and student development programs.

### Unit Aktivitas Bola Basket Universitas Brawijaya

***Staff Pengembangan* | Feb – Dec 2024**

- Secured sponsorships Brawnation 3x3 National Basketball Tournament worth more than IDR 15 million, contributing approximately 75% of the event's funding target.
- Assisted in proposal preparation, sponsorship acquisition, and partnership coordination to ensure successful event execution.
- Demonstrated strong negotiation, stakeholder management, and adaptability under tight event deadlines.

## PROJECTS

### Full-Stack Web Development – SIAPRO (Sistem Informasi Acara dan Protokol)

Using Laravel Designed and developed a web-based information system for the Presidential Advisory Council (Wantimpres) to digitize over 793,000 manual protocol activity records, streamlining operational workflows and eliminating reliance on manual spreadsheets.

### Internet of Things (IoT) & Automation – Smart Parking System using ESP32

Engineered an automated parking monitoring system utilizing microcontroller sensors and IoT protocols, showcased at the Brawijaya University Tech Fair to track real-time parking availability and optimize space management.

## SKILLS & INTEREST

| | |
|---|---|
| **Programming Languages** | **:** JavaScript, PHP, Java, C++, Python, and SQL. |
| **Frameworks & Libraries** | **:** Next.js, Laravel, and Vue.js. |
| **Databases** | **:** MySQL and PostgreSQL. |
| **Tools & Platforms** | **:** Git, GitHub, VS Code, Arduino, Jira, and Figma. |
| **Soft Skills** | **:** Analytical Thinking, Problem-Solving, Cross-Functional Collaboration, Agile Project Coordination, Adaptability, and Communication. |
| **Interest** | **:** Software Engineer, IT System Analyst, IT Project Manager, IT Developer, and Project Operation. |
